

## JA-154E-GR Wireless access module with display, keypad and RFID - grey

The JA-154E is a two-way wireless access module with an LCD display, a keypad and an RFID reader for security system control. Contains one operating segment and, if needed, can be equipped with up to 20 JA-192E control segments.

## Description

The unit allows simple system control using interlocking segments. It features Smart Radio Wake-up (SRW) which reacts to, for example, a wireless door detector being triggered and effects the automatic termination of sleep mode in a set system during the entrance delay.

The module is powered by alkaline batteries.

The module is addressable and occupies one alarm system position.

## Technical specifications

| Power                            | 4 x alkaline batteries AA (LR6) 1.5 V<br>Please note: Batteries are not included |
|----------------------------------|--|
| Typical life time                | 1 - 2 year(s) according to the settings  |
| Power input from external supply | 0.5 W  |
| Communication band               | 868.1 MHz, JABLOTRON protocol  |
| Communication range              | 200 m (open area)  |
| RFID frequency                   | 125 kHz  |
| Dimensions                       | 102 x 145 x 33 mm  |
| Weight                           | 350 g  |
| Classification                   | Grade II   |
| According to                     | EN 50131-1, EN 50131-3, EN 50131-5-3   |
| Operational environment          | EN 50131-1 II. Indoor general  |
| Operating temperature range      | -10 to +40 °C  |
| Also complies with               | ETSI EN 300 330, ETSI EN 300 220, EN 50130-4, EN 55022, EN 60950-1               |

| Can be operated according to | ERC REC 70-03 |
